A little bit of History...

The Blackboys Inn is an original 14th century coaching house. It is believed that the Inn was founded as an overnight resting place for drivers transporting charcoal from local woods to Lewes and the surrounding areas. It is likely that the majority of the charcoal was used by the nearby Buxted foundry where it is believed that the first iron cannon in England was made in 1543. The main business of the village stopped in the early 1800's when the iron industry moved north to the Midlands with their large deposits of coal. It is believed that the village name of "Blackboys" came from the colour of the charcoal burners when they emerged from the woods, or the more likely explanation is that the name means Black Wood, from the soot deposited in the woods by the charcoal.

What's on at the Blackboys Inn?
